

# HURRICANE PREP *with* iSF

Make a plan.  
Build a kit.  
Be informed.

## The most important thing you can do as hurricane season approaches is to get yourself, your family and your home prepared.

By starting early you'll avoid the rush at home supply stores, grocery stores and other venues typically crowded and often chaotic when hurricane watches and warnings are issued.

Make your hurricane preparations easier by using this Supply Checklist and Family Emergency Plan to start preparations before disaster strikes.
